SPRUNKI Colouring Pages: All 20 Characters

Colour it the way the character actually looks, or ignore all of that and make something new. Both are correct.

- 20 sheets, one character per page, A4.
- Every sheet names the character and the colours it is drawn in, so nobody has to look anything up.
- Print at 100%. On US Letter, choose “fit to page” so nothing is cut at the bottom.

For personal, non-commercial use; not for sale, not for mass production. A printable sheet is not a licence to sell printed copies, a colouring book, or a kit. Character artwork and names belong to ShinStar LLC. Writing to hi@sprunki.com is how a licence conversation starts.
